

Do you know which one is receiving palliative care?

We don't know either, but we do know this . . .

If one of them is, they feel more supported when family, friends, neighbours and work-mates know what to do, how to care and what to say.

That's where you come in...

Caring for community members = Everyone's responsibility!

Palliative care teams across Southern Metropolitan Melbourne help people to be cared for in their local community.
