

Program of Experience in motor neurone disease

2018

- **Learn** best practice in the management of MND
- **Create** new networking opportunities
- **Understand** the needs of MND clients with respect to palliative care
- **Increase** your knowledge and skills about MND
- **Gain** expertise in your own professional discipline around the management of MND and palliative care

Participants will spend 3 days at Calvary Health Care Bethlehem and 1 day at Motor Neurone Disease Victoria.

A total of FOUR places are available

All Health Professionals working in Palliative Care Services in Victoria can apply

Participants from palliative care agencies in the Southern Region will be funded by the Southern Metropolitan Palliative Care Consortium. All other participants will need to fund their placement through their employer.

Applications close 23 March 2018
